GST). for other services please feel free to contact us at any time.

## Laptop BIOS password removal service

- Forgotten/Lost your laptop password?
- Trying to change password protected BIOS settings?
- Just inherited a co-workers laptop with a password?
- Are there laptops in your company with lost passwords?

We have the ability to read or erase most laptop passwords on site in our workshop. We can also recover the Hard drive password on IBM pc's. Most companies that offer IBM laptop password removal cannot remove the password on the hard drive, We can. We can remove power on passwords, supervisor passwords, Bios passwords.

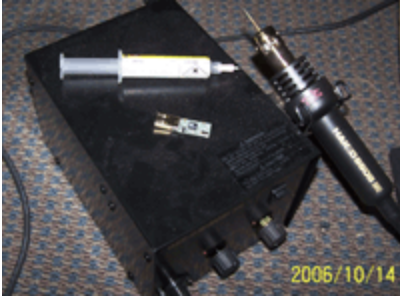

Our laptop bios password removal service is available for all makes and models of laptops. Our normal turnaround is between 3-4 days.

Most manufacturers will recommend that the mainboard (motherboard) will need to be replaced if a password is lost. This is untrue and just a money making policy by manufacturers.

### OUR SERVICES

- Power on password (pop) removal
- Supervisor password removal
- Bios Password removal
- Hard Disk (hard drive) password removal

## Flash disk recovery

Broken flash disk recovery, one night before exam! what a nightmare for a student!  
fixed it in 35Min, using Hakko soldering station & liquid solder paste for exchange of memory on a new flash disk.
